

STOC II User's Guide
Summary of Changes
November 2009
REVISION 1

Page 5:

- Updated web site address. Revised date for COS to November 2009.
- Under “Award Process Overview” revised step 3 to state that RFI, RFW, or ROP will go out to all contractors within the chosen Lot.
- Added requirement for draft RFP for consistency throughout the document.

Page 6-7:

- Deleted language requiring responses to SSN and requiring that if a RFI, RFW or ROP is used, it must go out to all contractors within the chosen STOC II Lot.

Page 11:

- Added language on “Rule of Two” for small business set asides and the work percentages required for small businesses.
- Deleted the requirement for using DD 2579s under STOC II.

Page 12:

- Required EFOs to be posted as SSN prior to completing the EFO.

Page 13:

- Added acquisition objectives and perceived risk to items needed to develop evaluation factors.

Page 14:

- Added language that allows a Past Performance factor on Proposal Submission Instructions for the purposes of developing a Proposal Evaluation Report.
- Reorganized bullets to put Letter RFP first
- Deleted STOC II DO/TO checklist as it is not used.

Page 15:

- Added language requiring that the use of support contractors in evaluations must be put in the Proposal Submission Instructions in addition to the PEP.

Page 16:

- Increased minimum required response time from three to five days.
- Added additional days for longer submissions.
- Added language making contractor responses to the SSN not mandatory.
- Added language encouraging PCO to provide verbiage as to why an offeror was not selected for the next stage.

Page 17:

- Deleted SF 33 and replaced with DD 1155.
- Added PARC (or HCA) as decision for new IDIQ actions out side of STOC II for consistency throughout document.
